## PRACTICAL INFORMATION

### WELCOME TO BILBAO

Bilbao has been recognised as **Best European City 2018** by the jury of "The Academy of Urbanism" after being evaluated not only according to urbanistic issues but also regarding environmental, social, innovation, governance, and identity terms.

Bilbao has always been an industrial city, dedicated mainly to the metal and maritime industry. Towards the end of the 20th century, as a result of the **industrial restructuring**, Bilbao had to make a radical change to its economy. After years of economic uncertainty, the city recovered its dynamic nature and became a service city, committed to environmental and urban regeneration.

The great symbol of this New Bilbao is the **Guggenheim Bilbao Museum**, designed by Frank Gehry, but many other factors have contributed to this regeneration and profound change.

Over 25 years Bilbao has gradually been shedding its industrial skin and rehabilitating emblematic areas of the city; one of the last is **Zorrotzaurre** and Ribera de Deusto area, where ZAWP was born.
