LOCATION:

Epanomi (Thessaloniki), Greece

THEME:

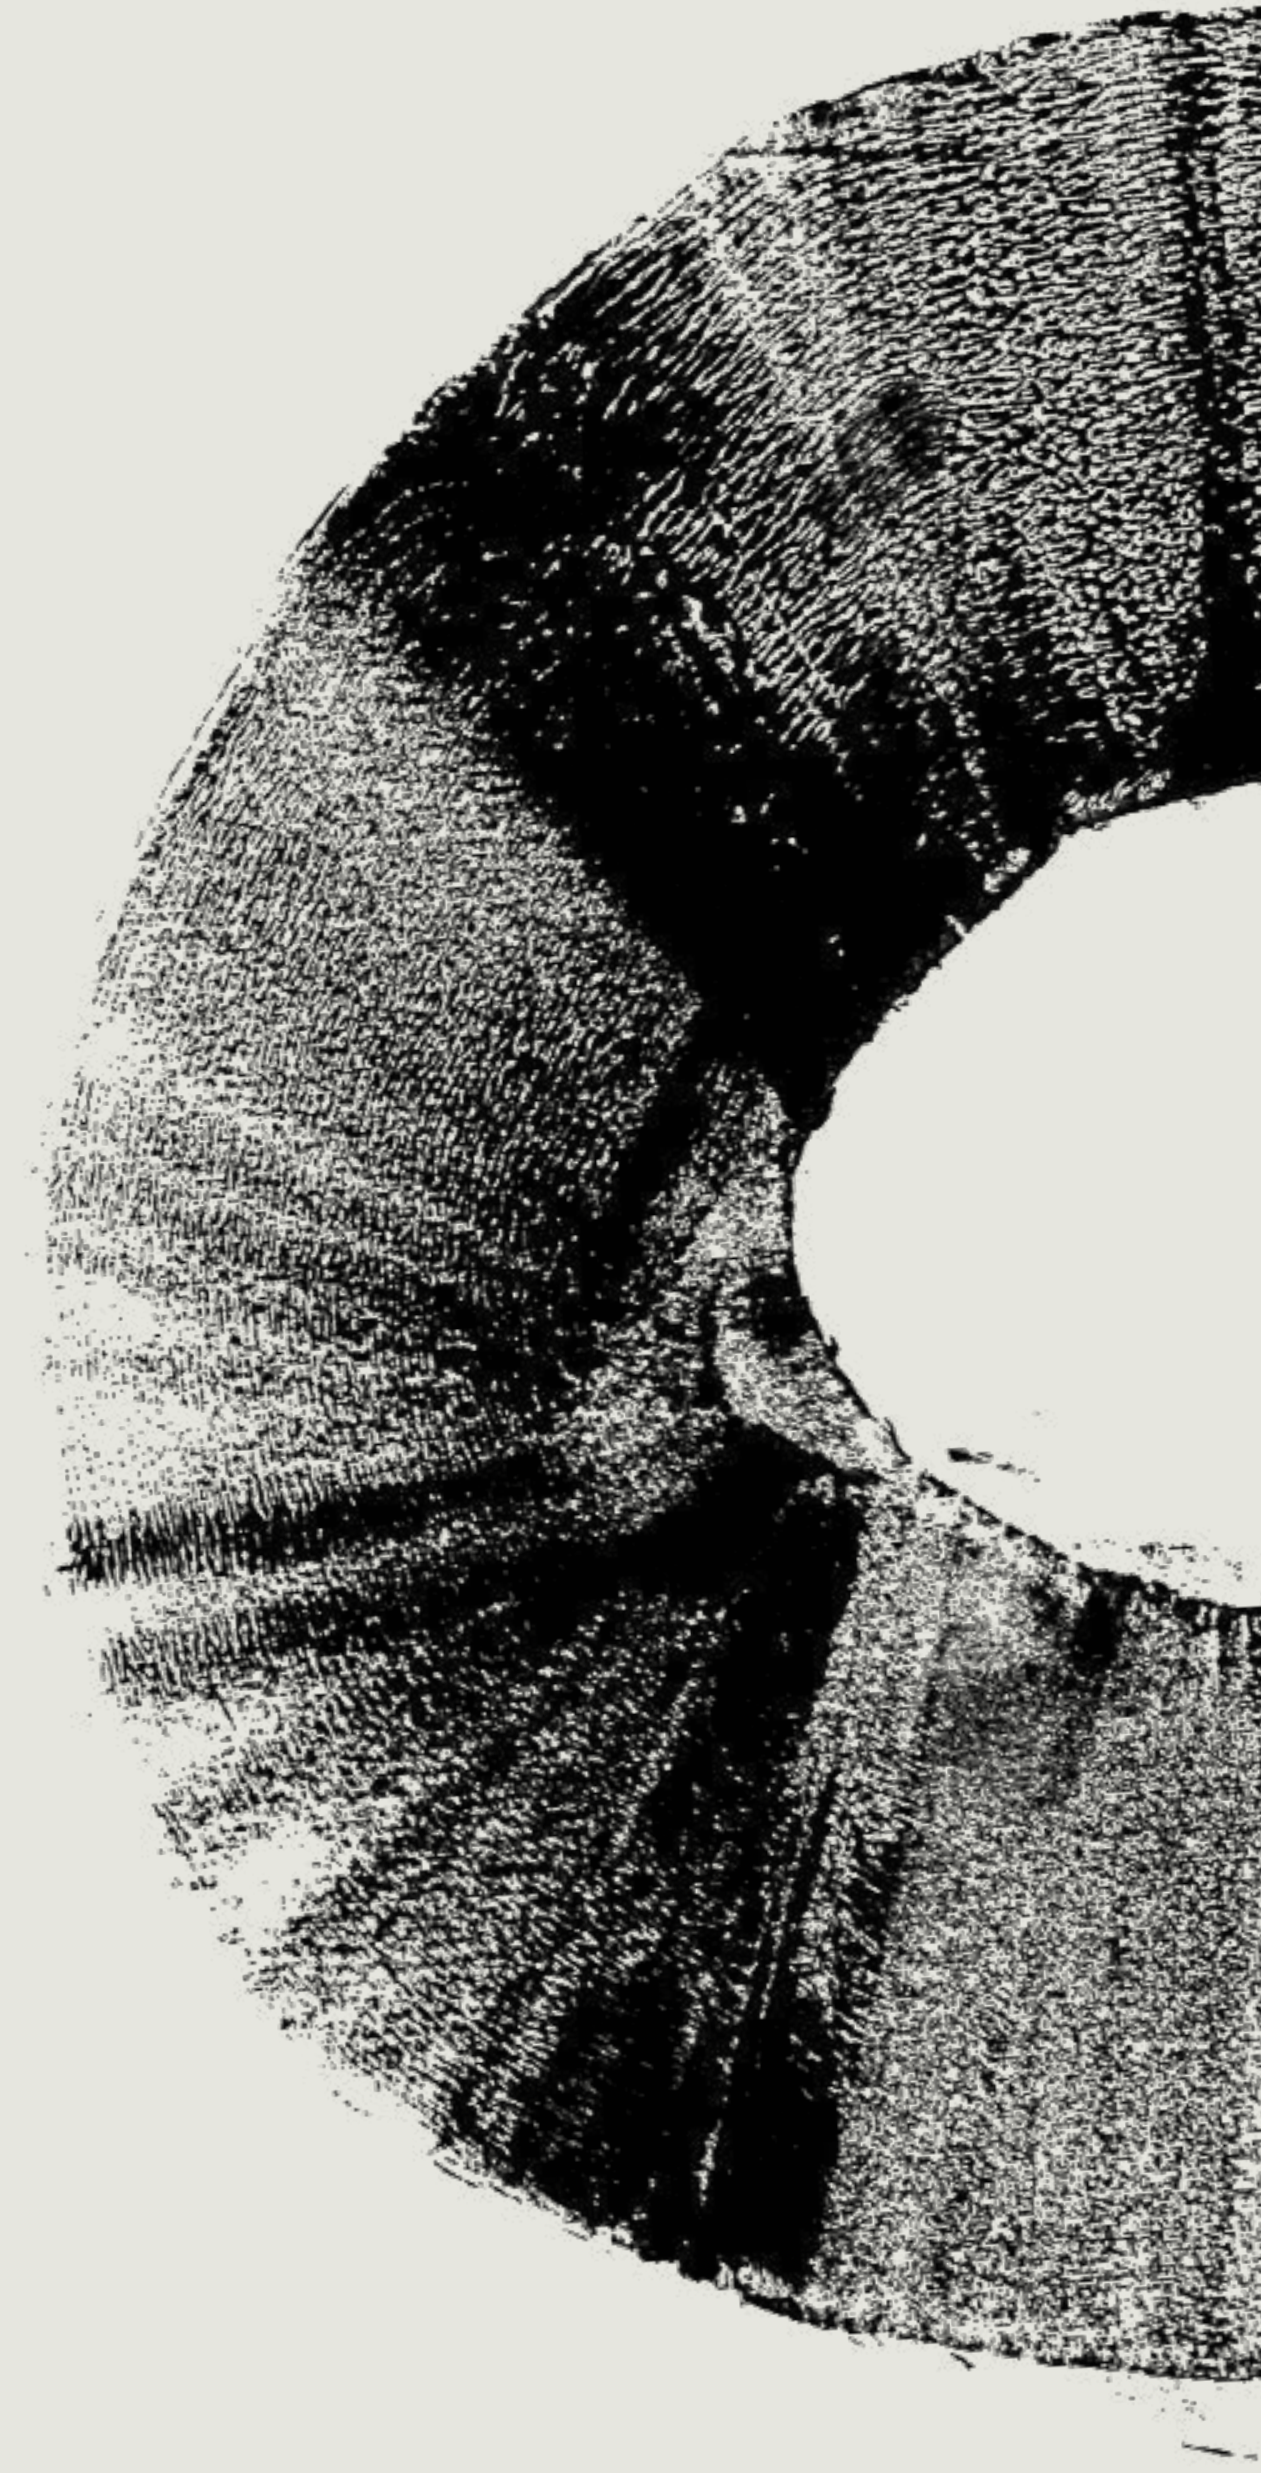

“Argatia” - meaning ‘bond’ in Greek, focusing on strong connections forged between generations, neighbors, and cultures.

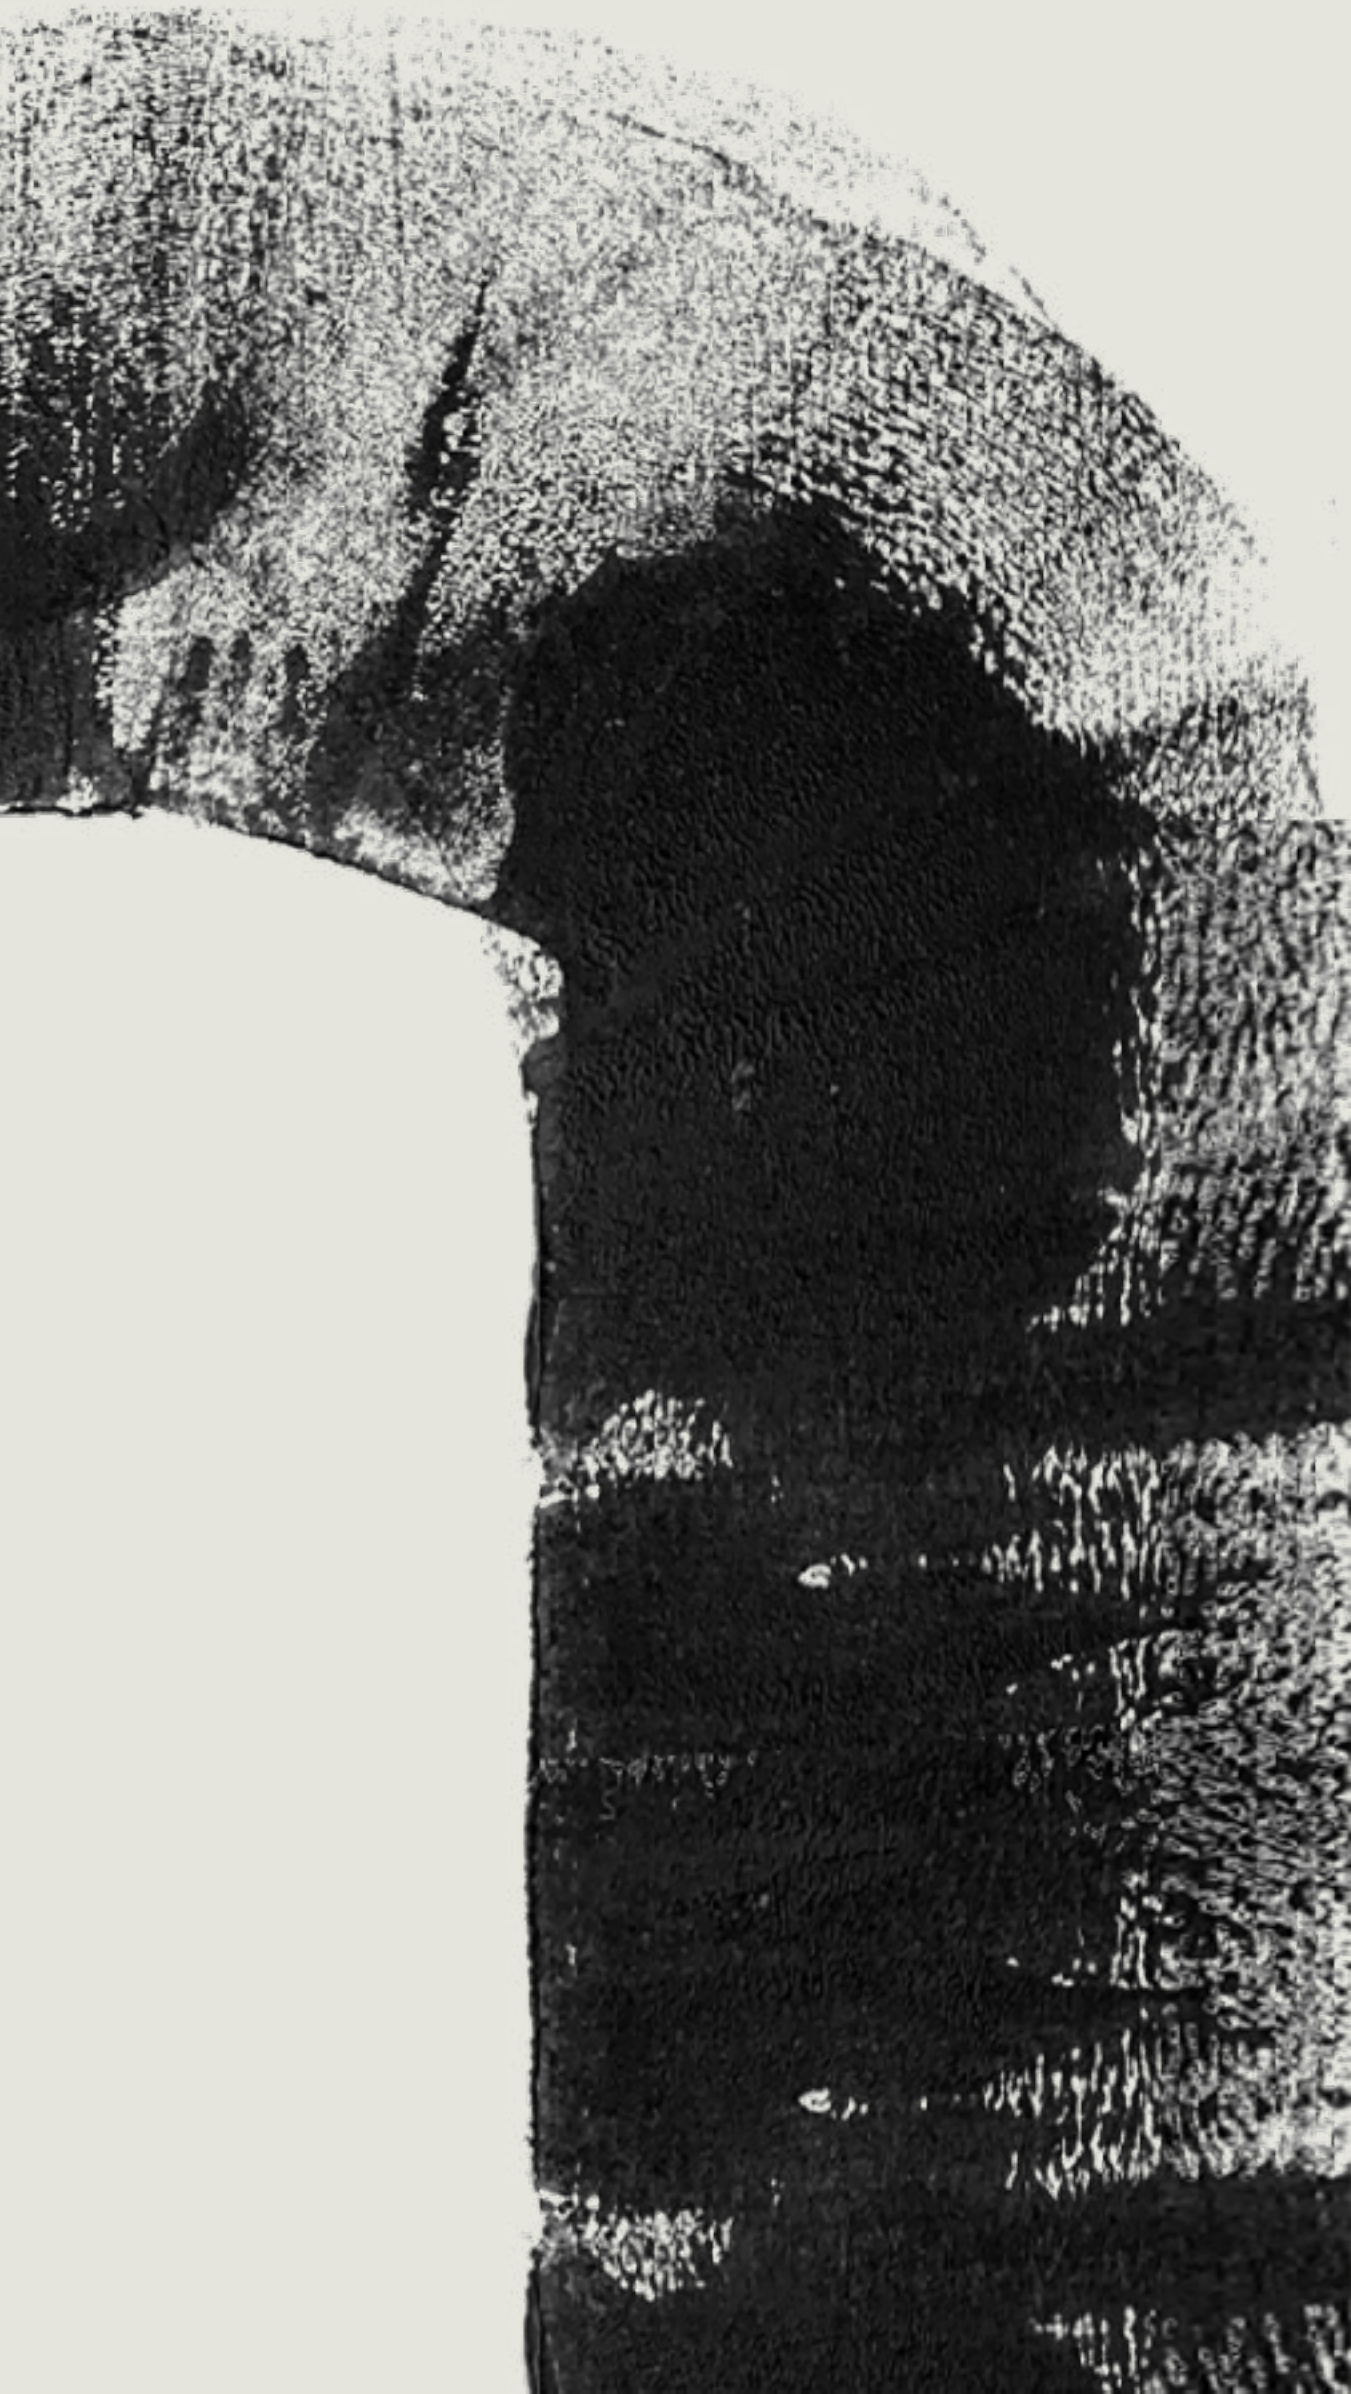

EVENT OVERVIEW

VENUE:

Welcome to ΦΙΞ in art's new home in the charming town of Epanomi! Nestled between the serene waters of Thermaikos Gulf and the stunning beaches of Halkidiki, Epanomi offers a picturesque setting for creativity, community, and cultural exchange. Located amidst olive trees and vineyards, along the sunny Mediterranean coast with views of Mount Olympus, ΦΙΞ in art Association has been fostering creativity and community since 2011. This cultural hub serves as a beacon for artistic expression, offering a space where local and international artists, as well as the creative audience, can converge and collaborate. With a focus on inclusivity and education, the organization is dedicated to social change, tackling issues like poverty and food insecurity through initiatives such as the M-eating Hub.

VENUE:

ΦΙΞ in art Association provides a nurturing environment for all forms of creative expression, from visual arts and music to theater and dance, facilitating workshops, exhibitions, and performances that inspire and engage the community. The organization also emphasizes sustainability and environmental awareness, integrating these principles into their projects and activities. By fostering a culture of non-violence, peace, and mutual respect, ΦΙΞ in art Association creates a welcoming space where ideas can flourish and diverse voices can be heard. This commitment to social values and artistic innovation makes ΦΙΞ in art Association a unique and vital part of Greece's cultural landscape, continually enriching the lives of those it touches.

Epanomi itself boasts a rich history dating back to the Neolithic era, with archaeological finds showcasing the succession of civilizations that have flourished in the area. Today, it is a modern town with approximately 10,000 inhabitants, blending the rhythms of agriculture and tourism. Its proximity to Thessaloniki, just 30 km away, makes it a popular destination for swimming and relaxation with 40 km of pristine shores to explore. Epanomi is not just a beach destination; it's also home to important natural habitats, including the renowned wetland of "Potamos," which teems with diverse wildlife and is included in the Natura 2000 network.

VENUE:

At ΦΙΞ in art, sustainability is a way of life. The organization is committed to building a greener future by harnessing renewable energy, reducing its environmental footprint, and inspiring others to embrace eco-friendly practices. Volunteers play a crucial role in these efforts, participating in a variety of activities such as environmental awareness actions, gardening, upcycling projects, and more.

The organization's European Solidarity Corps (ESC) projects offer unique opportunities for personal growth and meaningful engagement, addressing societal challenges and promoting social inclusion. Volunteers at ΦΙΞ in art experience communal living in shared accommodations, engage in diverse weekly activities, and immerse themselves in Greek culture through language classes and communal meals. The picturesque surroundings and the welcoming community of Epanomi make it an ideal place for volunteers and artists to explore their potential and make a positive impact on the world.

Join us at ΦΙΞ in art and be part of a vibrant community dedicated to creativity, collaboration, and positive social change. Together, we can paint a brighter future, one brushstroke at a time, while experiencing the beauty of rural Epanomi and the warmth of Greek hospitality. Welcome to the ΦΙΞ in art family.

The image shows a road with white dashed lines curving through a landscape. The road is the central focus, with the lines clearly visible. The background is a mix of green and brown, suggesting a natural setting. The word 'TRANSPORTATION' is written in a bold, orange, sans-serif font across the middle of the road.
